

The graph displays two data series over time from 1970 to 2010. The red line represents the total labor force, which starts at approximately 100 million in 1970, drops sharply to around 60 million by 1975, then rises to a peak of about 140 million in 1980. It then fluctuates, with a notable dip around 1985, followed by a steady increase to a peak of about 150 million in 2000, and a final decline to around 120 million by 2010. The teal line represents the labor force without a job, starting at approximately 10 million in 1970, rising to about 20 million by 1975, then generally declining to a low of about 5 million in 1990. It then rises to a peak of about 25 million in 2000, and finally declines to around 10 million by 2010.
